Hari Kishore B

Objective

My objective is to create user-friendly and efficient websites that are visually appealing and easy to navigate. I utilize my skills in HTML, CSS, and JavaScript where I can apply my advanced knowledge of web design with my abilities to meet client needs and exceed their expectations.

WORK EXPERIENCE

Programmer
Tata Consultancy Services

12/2021 - 08/2023   *Chennai, Tamil Nadu, India*

My role is to setup contract and generate invoice for various customers using SAP SD and S4 HANA. Based on my performance, have been involved in the migration of SAP to S4 and UAT testing..

Achievements/Tasks

- Initially the system was in SAP and later migrated to S4 HANA.
- Played a major role in migration process and a key player in the UAT testing team for two business units.
- Identified bugs/defects during UAT testing, coordinated with the PWC team to explain the same, based on which the system was modified.
- Have tested the software once the modification was done to make sure the software works efficiently and moved it to the production.

PERSONAL PROJECTS

Fabevy technologies (12/2022 - 07/2023)

- I am learning Front End programming language in Fabevy to get hands-on experience in developing real-time project. I started learning Front end Developer in Fabevy.
- My major role is to understand the concept and need to develop the web application using HTML, CSS, JavaScript and React js. I have created some web page using these languages for better understanding which I pushed in my GitHub.

SKILLS

HTML   CSS   JavaScript   SCSS   Photoshop   React JS   Jquery   Bootstrap

ACHIEVEMENTS

I have received Team performer Award in APR 2023.

I have received Star of the Month Award in JAN 2023.

I play the major role in testing and maintain two business unit from DEC 2022

Managed day to day interactions with client executive and sponsors for two weeks regarding S4 Hana. Gather requirements from client stakeholders and ensure that we're exceeding their expectations at each step of the engagement.
